AL MARASI INTERNATIONAL COMPANY

## ENVIRONMENTAL POLICY STATEMENT

Al-Marasi International Company is an Iraqi leading provider of Freight Management and Logistics Services, and will maintain its commitment towards achieving continuously improved performance in Environmental Management and in the sustainability of Services provided to its Customers by measuring and monitoring input and output throughout all levels of our Company and will measure the achievement of the aims and objectives of this policy.

ALMARASI's strategy is to deliver sustainable growth in shareholder value by becoming the Logistics Partner of choice which will be achieved by preparing procedures to monitor energy use in offices, waste recycling in offices and material disposal in warehouses.

ALMARASI will achieve high performance standards for energy use and environmental impact throughout our Company and will measure the achievement of the aims and objectives of this policy. In implementing this policy ALMARASI recognizes that our operations have the potential to impact adversely on the environment.

ALMARASI believes that every one of our personnel should have a personal and collective responsibility to protect the environment, to promote the use of sustainable resources and to improve process efficiency.

Our central aims and objectives are:

- To manage at business level the effective use of resources to prevent the generation of waste and pollution and to ensure sustainability.
- To comply with, and where practicable exceed, the requirements and targets set by existing environmental legislation and regulations and to plan ahead for future compliance.
- To use impact assessment to minimize any adverse effects of our operations on the environment and where possible to improve the environment.
- To maximize the use of transport means that minimize pollution and consumption of non-renewable resources as possible.
- To embrace Customers and internationally recognized objectives when setting internal targets.
- To provide and maintain so far as practicable a pollution free environment for our personnel and the wider community in which they interact.
- To take into account the environmental impacts of our raw material sourcing and operations on habitats, species diversity and natural beauty.
- To provide a common framework, which adopts and supports best practice, for energy and environmental management at all levels within our company by allocating appropriate resources.
- To encourage the development of similar policies within our supply sources.

The aim of this policy will only be achieved through leadership, responsible management, commitment and ownership of these issues by Bertling personnel. This policy is publicly available on company's website on [www.al-marasi.com](http://www.al-marasi.com).

Yours faithfully,

Ali Majid Sabah/ Authorized Managing Director
